"A squad of cavalry was lured by a manoeuvre of our cavelry into the range of our infantry fire and itterally annihilated.

"French attacks which had been directed for tim days against our positions south and west of Lake Dolran, falled completely. This probably is the reason why the General Staff of Gen. Sarratt (the allied commander) reports the capture of the places which all siong had been in the hands of the French, such as the railroad station of Doiran and the village of Doloudyell, which was bandoned by the enemy.

"Our troops buried 50 French dead on the right bank of the Vardar. In the vicinity of Nayadagan we captured a hostile detachment and one machine gun The French left 70 dead behind them. On our right wing operations are continuing."

PARIS, Aug. 24. The French War Office this afternoon gave out an of-ficial announcement on the operations in front of Salonica, reading as

follows:
"In front of the right wing of
the allied armies the enemy is intrenching himself on the left bank of the river Struma and on both sides of the highway to Seres. Between the Struma and the up-per valley of the Moglenica Anglo-French forces have re-pulsed without trouble several attempts of the enemy to recapture the positions occupied by Angio-French forces to the north of Palmes, in the sector of Doiran and in the direction of L Jumnica. "Along the entire mountainous front to the west of the Moglenica Berblan troops are developing.

Serbian troops are developing an offensive. On the extreme left they have reoccupied as a result of a vigorous counter attack, Hill 1806, five kilometres (3 miles) to the northwest of Ostrovo Lake, which position they lost on the morning of Aug. 23."
